Minimum Immunization Requirements for the School Year 2017-2018

Dear Parents,

Huntington County Community School Corporation was notified of changes to school immunization requirements **beginning** with the school year 2013-2014 and that will also **apply to the school year 2017-2018**.

The new requirements for students in grade 12 for the school year 2017-2018 are as follows:

- A second meningitis vaccine, (booster dose) (meningococcal conjugate vaccine) if the first dose was administered before the age of 16.
- If your son or daughter has already received a booster dose of the meningitis vaccine, please send the documentation to the school nurse. (**Acceptable documentation will be a shot record or other paperwork from the physician or agency that administered the vaccine which includes the date and name of the vaccine that was administered**).
- **Parents will have 20 days from the beginning of the 2017-2018 school year to provide this immunization update information.**

If you have questions regarding this new immunization requirement, please feel free to contact the school nurse at 260-356-6104 ext. 1500.

Although the second (booster) dose of meningitis vaccine is not a **requirement until the Senior Year of School**, we encourage you to **contact your physician** or the local health department (260-358-4831) and make arrangements to receive this vaccine well in advance of the 2017-2018 school year.

Please review the immunization requirements shown in the table to the right.

Your son/daughter should have these minimum immunizations by the start of the 2017-18 school year.

Sincerely,

Russell Degitz

Hepatitis B	3	MMR	2
DTap	5	Varicella (Chicken Pox)	2
Polio	4	Tdap (Tetanus, diphtheria booster with Pertussis)	1
Meningitis (MCV4)	2	★
