Parents,

Your child recently received their ISTEP+ Winter 2017 test results sheet. Please take the time to go over the result details with your child and contact the school with any questions. Please remember that ISTEP+ is a “graduation qualifying exam,” mandated by the State of Indiana for a student to receive his/her diploma. We will continue to instruct and remediate students who were unsuccessful with the Winter testing in preparation for the next round of testing during the 2018-2019 school year. For those students who successfully passed the Winter assessment, no additional state-mandated testing will be required for graduation.

Russ Degitz
